Here Is A Good Letter From North Africa

April 22, 1943

Dear Mr. Pope:

Received your letter of Feb. 8th and want you to know that it was greatly appreciated. It was so long and newsy that I am now ashamed for writing as I did. However, you know that I wasn't serious. Besides, I have been getting the Herald right along and in a way, that is just like hearing from you. But, seriously, if you should find the time, again, do not hesitate. I enjoy your letters quite a lot.

Everything is running along quietly here. It is slowly turning warmer and can easily be seen that the summer months will be "quite" hot. We know what that is, however, as we trained in Muroc, Calif., which isn't exactly cool. I confess that I'd like to be on that Muroc Dry Lake now. But that is one thing this war has taught us. In the future we will most assuredly appreciate the simple things of life. For instance, my buddy wants nothing more than to sit in the bath tub, where he can reach the handle of the commode and flush it time after time. Seriously though, it's just things like that, that we miss.

You asked me to tell you all I could about this place. Well, even my excuse will have to be the censorship regulations. They aren't really so bad, yet, we have the devil's own time writing letters. I imagine too that you've heard most of it already. J. B., I know did the job, and there isn't much I can add. My squadron has just recently acquired a villa, the upstairs being for officers and the lower floor for enlisted men. That is only for frequent use, however, otherwise we would get to thinking that this was a vacation. The French go in for perfume and after a trip to town where one is bound to stop in a barber shop, you come back smelling like, I won't go into detail. Our cigarettes, some candy, chewing gum and free writing paper have been coming in very good. We happen to be in a fairly prosperous region where the natives are fed very well and the French population seems to be very well educated. Was a guest at one's home and was served a glass of wine and they had a sort of ice cream. More on the order of sherbet. Was very good and I think that those people have made a friend of me. I certainly hope so, boy, was that cream and wine good. Ho.

You mentioned Capt. Fielder in your paper, also where he saw action. About two years ago I was in Fresno, Calif., Hammer Field, and then, 2nd Lt. Fielder stopped me one day. I thought he was going to "chew me." After he told me who he was, though, I remembered. I was in the same region here as he, only wish I could have seen him.

Was very glad to hear you say that you had seen my Dad. I hear from him regularly, just hope you can see him now and then. From him and your letter I understand that the country is looking forward to good crops this year. This is the time of year that I would want to come back in. Spring and yet not too hot. I can see it all yet. In the army there are always argument about this and that state. Texas is always well represented.

I sincerely hope this finds you and Mrs. Pope enjoying good health and prosperity.

Sincerely,
T-Sgt. Max Taylor

(My APO has just been changed to 525). The Herald wishes we could be permitted to give the address of all our boys but they think it not best.

SOMEBODY TOOK THE LAMPS

What do you think about the fellow who came along in a red pick-up Sunday night early and stopped on the highway curve in the edge of town and picked up the warning flares placed there by the road builders? That's what happened. A man and his wife were sitting on their porch and saw this. Wonder if it was meant for a pool joke? It is a violation of law to take things from the highway that belong to the State. Better bring those lights back fellows.

We especially urge our own people to make every possible preparation for a real revival that will help us as individuals, as a church, and as a community.

And Children

We were shown a letter from Sgt. Elmer T. Cooper, son of Mr. and Mrs. Terry Cooper of the Round Top community. He is in England and is getting along fine and says the country is pretty, the nights chilly and dark comes about 10 P. M. It is remarkable how our boys speak of the affairs at home. Sgt. Cooper naturally asked about cattle, sheep and crops. He says he has seen all the salt water he cares to till the boats start for home. Elmer has been in service one full year, starting at Wichita Falls.

Miss Maxine Poe has come home from Texas Tech for the summer at home. She will be a Junior there next term, and she says she wants a good three months' rest with Mother and Dad at their home east of Neinda.

Fred Willis, a fine young fellow of Mangum, Okla., came down on Thursday of last week to visit for several days with Jerry Waggoner, and his uncle, L. H. McBride and family. There has developed a deep feeling of friendship between Jerry and the Willis boys, Fred and Bill. Bill is the older and recently graduated from the High school in Mangum. He has been down to see Jerry two or three times and Jerry has paid them a visit. Jerry is driving a car now and enjoying life all round.

W. C. Russell went to Ruidoso, N. M., Saturday on business and to visit his sister, Mrs. Cleve Dunn who went up there earlier in the week to open her Texas Cabins for the summer vacationists.

THIS WEEK

A LITTLE BIT ABOUT

This

AND A LITTLE BIT OF

THAT

—Just where and what to "elaborate" upon this week is a problem. BUT suppose we start off on Zoot Suits, a kind of crazy idea for the time being. It seems that the Zoot Suit war has started in Los Angeles. Out there the sailors are taking the Zoot Suiters in hand. Evidently the Zoot Suit wearers are some kind of young men who seek to be somewhat silly instead of getting in there with the boys and fighting a he-man's war. Now a Zoot Suit is a thing with pointed legs, high waist lines, up under the "fleshy parts" of the breasts—broad waist bands, bulgy, baggy seats, with a "log chain" running down the leg to the ankles. . . . the coat is a long affair, pointed, belted and pleated in the back, with the lapels flaring out past the shoulders, all this topped by a low-crowned, broad brimmed kind of hat. . . . all together making a messy looking affair for even a South Sea Islander. No wonder the sailors went out on a Zoot Suit smash-up in Los Angeles mainly though because such pole cats had been almost nightly assaulting service men, civilians and women. . . . such rats would be expected to do something like that. . . . since the police failed to stop it, the sailors, and the marines took them on. . . . another case in which a dirty problem back home had to be cleaned up. . . . yet some guys in this America would think it smart to wear a crazy garb like that dress out on the streets. . . . sounds much like the crazy idea of swallowing live fish to get a kick out of their wiggle, in the belly. Three cheers for the service men, spread out boys and take in a lot more territory, there's room. . . . besides Zoot Suiters.

—See now where the postal authorities are trying to start a new system of addressing mail to cities. Indicating that such figures as 3, 5, 7, 4, indicating zones something like unto that is asked to be put on all mail. That's easy for addresses known and to be so established, but it is going to be a long spell before the general public will add something they know not which or what. Maybe some of the postal distributors do not know what section of their city a certain street is in, and maybe so. But as long as a paper or letter is sent to 113 West Cocklebur Avenue, Fort Worth, or Podunk, it seems definite enough, till some day when the "City Zone" is known, by the sender.

—Imagine how we Americans would feel if we were as certain of being bombed by air and water, on all sides, like the Italians are now facing. . . . the certainty that the English and Americans are and are going to do that very thing? It must be terrible to face absolute defeat, but it will be a blessing to Italy to be thoroughly whipped by the English-Americans. The quicker the better for them.

Cecil Terrell Commended By His Commander

Below the Herald is reproducing a letter from Corporal Cecil Terrell's Commandr, Major George C. Deaton, in North Africa. Miss Lula Fletcher is Cecil's aunt, and recorded "next of kin." The letter reads: "Dear Miss Fletcher:

"I am indeed happy and proud to be able to write you at this time and express my thankfulness in having the opportunity to have in my command the calibre of men such as your nephew. Naturally you were proud of him before, now you can

be doubly proud that you are the honored aunt of a faithful nephew who has distinguished himself by exceptionally meritorious conduct in the performance of outstanding service throughout the past six months.

"Today at 1420 (2:20 P. M.) we cherished the glad news that our job had been completed here in suffering the common enemy to surrender on his own soil.

"My first reaction to the news was the thoughts of our folks at home, of those who gave their lives in honor on the battle field so that I could write this letter to you and say to

you: 'Your nephew is living and in very good health. I am proud to be his Commander as you are to be his aunt.' "

Sincerely,

George C. Deaton,
Major Air Corps, Commanding

(NOTE: Folks of Hamlin, the war in Africa was quite real to such fine Americans as our Hamlin boy, Cecil Terrell, and his good Commander. The VICTORY was a thing to be proud of, by every man that helped make it possible. Wonder if the boys "ever there" could be proud of how little the folks "back home" celebrated that victory? It was one of the greatest victories ever gained by American participating soldiers—that Tunisian, North African Victory, and the glory bells and parades should have made every little hamlet in America swell with pride, but "we were too busy"—the church bells of England rang all day that following Sunday, and the places of worship were crowded with thanksgiving for they knew what that victory meant....we didn't.)

Corpl. Wayne Hodnett, one of our Neinda fellows who has done two years at Ft. Bliss, was having a good time on the streets Saturday while here on a seven days furlough. Wayne says it looks like he is stuck. Don't worry, soldier boy, you may get to moving ere long and why bother, there is just so much time to go before the Germans and the Italians get that kick in the pants.

— S & S —

There is an old "paratrooper" over in North Africa, who scribbled us a letter on that V-Mail and all that was visible was hard to read. He's Corpl. D. T. Townsend. He says "People there would not believe it if we told what happened... where we are now is where the Germans were once, but are here no more. All the people here hate the Germans and say they like us.... had a good trip across the pond.... never saw a one of those German subs"... so that's another old boy who was alive on May 24th. Yes sir, Townsend gets the Herald.

About Soldiers--Sailors

Pvt. Floyd Farmer, another Marine, came in from San Diego last Friday. He is a son of Mr. and Mrs. Jack Farmer. That Marine uniform looks jam-up on him.

— S & S —

One of the most happy looking soldiers seen in Hamlin the past few days was Troy (Boots to you) Walker, who said he had a 10 days furlough from Gowen Air Field, Idaho. (5 days coming and 5 going back). He got here last Friday, and what the army has done for him, you would hardly believe. Here is Hamlin before the army got him he jollied himself as a "bean peddler" and was too fat for his own good. The army has peeled off about 20 or 30 pounds and the old boy really looks soldierly now, and as hard as a Bois d' Arc post.

— S & S —

Sgt. and Mrs. Tex Russell of Mitchell Field, N. Y., arrived last Thursday on a 15 days furlough. The wife will remain here with her parents, Mr. and Mrs. J. L. Altum till some time in August.

— S & S —

Mrs. Clyde Huff left on Thursday of last week for St. Louis, or some point near Jefferson Barracks, so she can be near her husband, Pfc. Clyde. This handsome young soldier was down in Hamlin several weeks ago and his visit home escaped this column and here's trying to make it up.

* LATER: We learn that when Mrs. Huff arrived where her husband was the soldiers were on alert meaning they were being prepared to move to some other point. She could not get even a word to Clyde. So she started on her return back to Hamlin and more hard luck hit her in Oklahoma when two tires went out. She called to Hamlin and her sister and her husband, Pfc. Walter Hunter, went for her and the car. Mrs. Huff has the widest sympathy of all her friends—the same for Clyde.

— S & S —

Pfc. J. E. Johnson of the Lubbock Air Field has been at home one week on his 15 days furlough with his wife and parents.

— S & S —

About the luckiest young army Lieutenant "out of Texas" is Lieut. J. C. Turner of Ft. Sill, Okla.... that is just about 200 miles or less from Hamlin and with a good car and a pretty girl to talk to on the way, it is no trick for them to come down to Hamlin Saturday night and return Sunday night. Walters, Okla., is the "stopping by" place, where Miss Margaret Williams resides when not in an office in Ft. Sill, working. Yes, they were guests at the Turner home in Hamlin Sunday. It's a fine idea, come as long as you can Lieut. There are no subs on that road.

— S & S —

The public Relations office at Camp Polk, La., reports that WAAC Hester W. Fields of Hamlin has completed a brief refresher course there. This young lady is a daughter of Mr. and Mrs. H. Fields, near Neinda.

— S & S —

The Herald is furnished information thit T-Sgt. and Mrs. Waldon Pack are parents of a baby girl, born on May 17 at Lubbock. The mother is the former Clytee Walker, daughter of Mike Walker of Hamlin. She is Patricia Louise.

SOLDIER LETTERS:

Nothing makes better reading than letters from the boys on the fighting fronts, or from them any where for that matter.

Here Is One From Done Coles,
Ft. Leonard Wood, Mo.

Dear Mr. Pope:

I just thought that I would let you know that I'm getting the Herald and really glad to get it. It's really nice to get a Texas paper of any kind. I can't buy one at all here.

I like the army swell. We have to work like I never thought I could until I got in the army. It's a nice clean life though and something to be proud of.

I have been here a little over two months and I don't think it's ever gone over three days without raining. It has rained every day for the past two weeks.

I have been doing pretty good since I have been in the army. I was made a Pvt. 1st class the 18th of May and a Corpl. the 29th of May.

I have never felt better in my life and have gained about 20 lbs.

I have to close and write more letters. Tell everyone hello, and that soldiers really like to get letters!

A soldier,

Corpl. Don W. Coles
(This is a very swell-eligible letter, Don).

Pfc. J. R. Elliott, a soldier boy from Atka, Alaska, arrived Tuesday after an absence of 16 months. Up to this time J. R. has been in the infantry but is transferring to the Air Corps, and after a stay here with his parents, Mr. and Mrs. J. R. Elliott, Sr., till about June 21 he will report to Camp Haan, California.

— S & S —

Another Townley boy is on his way to serve Uncle Sam in this war. Jack Townley, a recent High school graduate, left last Thursday to join the Coast Guard. This is the third son for Mr. and Mrs. Everett Townley to have in the Navy. Let's remember it was a Coast Guard Cutter, the Spencer, that made the magazines last week because of its victory over a German sub. It was some fight.

— S & S —

Pfc. Lester Ford, a Sheppard Field soldier, came down for the past week end with home folks. This old boy has been in the service about 13 months, being assigned to the medical branch.

— S & S —

Pfc. Elmer Vieregge of Camp Barkeley was over Saturday and Sunday to visit his wife, the former Juanita Reynolds.

— S & S —

Tech. Corpl. George Powell came over from Camp Barkeley for his usual week end visit with his wife and her father, J. E. Moody.

— S & S —

Pvt. Roy L. Embrey, a Camp Howze boy, is spending a week at home with his mother, Mrs. Rosie Embrey. Roy is in the Field Artillery, and some day the enemy is going to hear his guns roar, and how!

— S & S —

Corpl. Edward T. Nail is consuming 15 days at home with his parents, Mr. and Mrs. T. P. Nail. He is a Camp Ord, Calif., man.

— S & S —

Here is something we should explain: You notice we do not give addresses. If we did, in time maybe the enemy would learn the various units of our fighting arm, and maybe that would not be good for the boys. We could tell that So and So belongs to Co. Z, 159th Amphibian Training Force, No. 9. But there is no Z company.

— S & S —

Pfc. Walter L. Hunter came in last Thursday from the Garden City Kansas air field to be at home till about June 17th, then will be accompanied back by his wife who will remain near his as long as possible.

Pvt. Sigmund Stovall spent all last week on the farm in the Flat Top community while on his furlough from the Bryan Air Field. He was accompanied by his wife, the former Dorothy Hines, who will not accompany him back at least for awhile.

— S & S —

Pvt. Horace V. Brown was up from Camp Howze, near Gainesville, for a visit with his wife and parents the past week end.

— S & S —

Pfc. A. V. Westmoreland came up from the Hondo Air Navigation School last Friday for a 15 days furlough with his parents, Mr. and Mrs. W. P. Westmoreland, near Neinda. He looks the picture of health, and likes his job.

— S & S —

Sgt. Fred Vick of the South Plains Army Air Field near Lubbock, came down on Thursday of last week to spend the week end with his uncle, T. F. Campbell and other relatives. This young fellow is on his second army hitch—now four and half years and now he is a glider.

OVEN CANNING

All fruits and tomatoes, and tomato mixtures containing at least 50 per cent tomatoes, may be processed by the oven method. However, Lone Star's Home Economics Director, Albertine Berry, does not recommend this method unless the heat of the oven can be accurately controlled and maintained, because a constant, even temperature is most important. In oven canning, follow these steps:

1. Be sure that the oven heat can be accurately controlled.
2. Preheat and maintain oven temperature at 250 degrees, making sure that temperature does not build up during the processing time.
3. Use only tempered jars and check them to see that none are cracked or nicked around the rim.
4. Count processing time from the time oven door is closed. In filling jar, have at least one-half inch headroom at top.
5. In removing from the oven, be careful that cold air does not strike the hot jars. Place them on several thicknesses of towel out of drafts until they have cooled to prevent breakage.
6. Complete seal immediately upon removing jars from oven if necessary.

Hamlin Couple Marry In Quantico, Virginia

Miss Constance Teague, daughter of Mr. and Mrs. Tom Teague, and Lt. Loren Griffin, son of Mr. and Mrs. L. E. Griffin, both of Hamlin, were married Saturday evening, June 5, at six o'clock in Quantico, Virginia. The ceremony was read by Chaplain Leonard in the Marine Post Chapel.

The bride wore a suit of white waffle pique, with all white accessories. Her flowers were white orchids.

The groom wore the regulation Marine white dress uniform.

Attendants were Lt. and Mrs. Bradley Place, former schoolmates of the bride and groom.

Following a wedding dinner at the Q. O. I. Officers Mess Hall, the couple left for Fredericksburg, Va., where they are making their home.

After completing her Hamlin High school course, the bride attended McMurry College in Abilene and N. T. S. T. C. in Denton, from which college she received her degree at the mid-term this past January. For the last six months she has been a teacher in the English department of the Port Arthur public schools.

Lt. Griffin is a Hamlin High school graduate and attended A. C. C. in Abilene, and N. T. S. T. C. in Denton, where he received his degree. He enlisted in the Marines while he was a student and went to Farris Island, North Carolina for training. From there he went to Officers Training School, Quantico, Virginia, where he recently received his commission as a 2nd Lieutenant.

Mrs. Roland is a daughter of Mr. and Mrs. W. A. Albritton and Mr. Roland was formerly a teacher in the Hamlin schools. For a number of years he has been in the business offices of the Texas Company at Port Arthur, and in Hamlin territory he has purchased the Agency Distribution of the Texas Co. from Holly Toler and will take charge about June 15th.

Mrs. Clinton Bristow and two of her three sons, Wayne and Dudley of Muleshoe, are here to visit her parents, Mr. and Mrs. S. J. King.

Last week Ye Editor lost or left his note book somewhere in town and that caused items of news to be left out. One was that Mr. and Mrs. Otis Hopper and children were here from the Houston ship yard. Otis is an inspector of welding down there now and looks tough as a book and red as a beet. He is enthusiastic about the work even if it is hard. The other members of the family were glad to get back in the cool clear air of West Texas.

Mr. and Mrs. Brandon White of Dallas are spending a week here with her parents, Mr. and Mrs. S. M. Richardson, and her brother Cecil Richardson and wife and little daughter, Jan, who is only 2 months old. I'M IN THIS WAR TOO!

Yes, indeed! I'm mighty proud to be furnishing some of the 57,360,000 eggs Uncle Sam's asked for in '43. It takes five of us hens to lay enough eggs for just one soldier's yearly supply, and you can bet we're all laying to beat the Axis.

"By pushing a button, She's good as a MAN!"

She: And what do you mean, Reddy Kilowatt—"Good as a man"?

Reddy: No offense, lady! Just this: 5 feet 1 from your 4A slippers to your spun-gold hair. You love flower-hats, veils, smooth orchestras—and, maybe, being kissed by a boy now in North Africa. But, man, oh man, how you can handle that big and heavy press!

She: What's strange about that?

Reddy: How can 110 pounds of beauty boss 147,000 pounds of steel? Is it magic?

She: Oh, no, dummy! It's simple. Electricity does the heavy work. Push a button... or flick a switch... or pull a lever. I learned to do that at home... long before the war. Electricity makes it possible for women to do men's work—

Reddy: Then the secret of our great war production is electric power plus woman-power—

She: Certainly. Women are able to work beside men, or replace them, on America's roaring produc-

tion lines because they learned to use electric service in the home. Call it magic if you like. But to me it's just good old common horse-sense!

The West Texas Utilities is helping make America power-full... helping provide this country with the world's greatest supply of electric power... power that enables women to do a man's work just as it has eliminated household drudgery and hard labor from the average West Texas home.

And more and more women are helping us give you the same good, dependable service you got before the war... and at the same low cost and without rationing.

Sixty-seven per cent more women were on our payroll June 1 than in 1940. The continued efficiency and dependability of Electric Service is in no small measure a tribute to woman-power.

POT SHOTS FROM McCAULLEY

BY GEO. DARDEN

Mrs. Sam Hardy, formerly of McCaulley and now of Houston, visited Mrs. L. E. Rector and other friends in McCaulley one day last week.

Margie Dell Darden of Ft. Worth little niece of the Geo. Dardens, is visiting for a month in the Darden home.

Levi McCollum and Luther Maberry were in Dallas last week end to purchase used cars for their customers.

Mr. and Mrs. Ellis Eivens and children of Ft. Worth spent last week end in McCaulley with parents, also to visit a brother, Sgt. Linnie Wheeler Eivens who is at home on leave from training base in the State of Oregon.

W. C. Keane, local blacksmith, is slowly recovering from a spell of illness. He is not yet able to do any blacksmithing and the farmers in these parts are hard pressed to get their necessary smithing done. Hope will soon be able to take over the shop.

Airplanes in droves are flying nite and day over the old home town. We wonder what it's all about. Perhaps the axis is to soon find out.

Farmers in this vicinity will have to replant most everything over due to hard rains.

It is still hard to get local news that should be in this column, due to the fact that people are staying in the fields and not coming to town. Again we will appreciate if you will drop us a one cent postal card telling us of visitors or any other news that may happen out your way.

We have just inspected a new synthetic rubber tire which the Rector Garage has recently received and it looks O. K. and as good or better than the real thing. Sure would like to have a set anyway. More wishful thinking.

Mrs. Jack Jackson, daughter-in-law of Mr. and Mrs. Frank Jackson, is visiting for a few days in McCaulley.

Rev. and Mrs. Grady Adcock have moved into the Methodist parsonage for the summer. Rev. Adcock has

been attending McMurtry and is local pastor.

NOTICE to Sextons, mid-wives and funeral directors: We would thank you very much if you would promptly report all births and deaths which occur in Precinct No. 2, Fisher County, to this scribe, and as Official Registrar for this precinct, it is our duty to see that deaths and births are registered with the State Registrar at Austin and to keep the record straight, all deaths and births here should be filed in Precinct where said birth or death occurs. It is a state law.

Mr. and Mrs. Joe Seraggs of Graham were visiting friends in McCaulley last Friday.

Another oil play in this vicinity is getting under way and the lease business is pretty brisk. A lease south and west of town is in the making.

C. V. Darden, bookkeeper and assistant cashier of Ben E. Keith Co. at Fort Worth, visited with his brother, Geo. Darden and family last Saturday night.

Sgt. J. B. Jayroe and Mrs. Jayroe are visiting for fifteen days in the home of parents in McCaulley and Sylvester.

J. W. (Jim) Fancher is ill and confined to his bed at his home south of town.

Mrs. Louis Hopkins of Ft. Worth and Latane Akins visited Bynum Akins, who is in training at Austin last week end.

Mr. and Mrs. Creed Smith of Abilene visited her parents, Mr. and Mrs. Frank Maberry last Sunday.

Miss Mary Galloway, a student at Hardin-Simmons, is home for the summer with parents, Mr. and Mrs. A. A. Calloway.

Mrs. George Martin has returned to her home in McCaulley after several days visit with relatives in Abilene.

G. W. (Uncle George) Martin became suddenly ill one day last week but is now much improved and able to be at the ice house.

Maberry and McCollum returned from East Texas last week with two 1942 cars, a Chevrolet and Ford and in case you have the necessary little piece of paper that it takes to buy a 42 model, we imagine they would let you in on one.

Pfc. Albert Galloway Jr. spent most of last Wednesday with his parents, Mr. and Mrs. Albert Galloway, after having flown to Sweetwater with Lieut. Risch and then he came on to McCaulley by auto. Albert Jr. is stationed at Bryan Field.

And the rains came. Great sheets of water, streaked, criss-crossed, forked and every other kind of electrical display of lightning lit the heavens. Thunder was like the sound of many cannons, and it all happened in McCaulley last Sunday night. And today, Monday, the sky is clear and the farmers wait for the land to dry before starting for their fourth time to replant cotton. Yes, life is not one continual round of pleasure and a lot of things could have been worse. Still, we admit that it is just a little disgusting to the farmer.

Always a day late and a dollar short. We are just now reading the book, "Grapes of Wrath". Why such obscene language is permitted to be published, well we can't figure out. And though the book may be true to life among the Okies, yet it is doubtful that such a book could be a morale builder.

Just a reminder: Our column, A Darden-O-Gram, is purely a one man's opinion, and even the publisher of the Herald may not agree with us on everything we write about, yet as a newspaper man, Bowen Pope is broad minded enough to even give the devil his dues. So when you agree with our column or disagree, just remember that a country boy is doing the pecking and even the boys from the forks of the creek have a perfect right to express their opinion in a grand old America.

COMMENT No. 1. Is America ready for peace? What would be the results if Peace should come today? Must Roosevelt bow to the will of John L. Lewis and what effect will the show-down between Roosevelt and Lewis have on the outcome of the war? The above questions are a few of the vital ones that are on the minds of our citizens of today.

Men and women who are studying the war from every angle, are aware of the fact that a majority of our citizenship are thinking of an early peace. Wishful thinkers who read nothing except the funny page and possibly the headlines are taking too much for granted as to an early peace. Men scoff at the very thoughts of our mainland being attacked, yet our thousands of miles of coast lines may be attacked at any moment as
